January

Center News

Center Based

After a busy couple of months, the classrooms are shifting focus to new experiences. From weather to nursery rhyme reenactments, the classrooms are going to be busy learning new and exciting things! Winter Weather is quickly approaching. We will not have official “snow days” this year. If we are closed due to weather, it will be a virtual class day. Virtual Classes do count towards attendance, so it’s important to try your best to attend.

Home Based/Early Head Start

The Home base programs are going to be focused on a few different things during the month of January. Our Socialization events will be themed around National Popcorn Day and National Bird Day! Families and home visitors will work together to incorporate activities in socialization events that promote each child’s goal. Home Visitors will also be working with children and families on activities related to winter time.

As always, feel free to call us anytime
