Early Head Start

Ms. Patti will be providing learning opportunities that focus on feelings and giving children “words” to label their emotions. Children need to be exposed to words immediately upon birth if not while still in the womb. When language ready, this will give the children the necessary vocabulary to communicate effectively, to label their feelings, and to get their needs met.

EHS will also be creating “I SPY” tubes. I SPY is a simple game which promotes development of social skills such as following rules and taking turns. When children wait for their turn, they are learning how to play and cooperate with others. In addition, social interaction through games build vocabulary and gives children a better understanding of language and how to use it.

Center Based

The center based classroom will be working on activities that promote healthy habits, such as eating a well balanced diet and good oral health. They will discuss the food groups and determine which foods are WHOA, SLOW, or GO foods. For instance, candy is a WHOA food, French fries are a SLOW food and vegetables are GO foods.

In addition, they will be working on identifying feelings, cutting and sorting, and other mathematical skills such as number recognition through games and other learning experiences.

Happy Birthday!

Icelynn S. 2/22
Bradly V. 2/22
Charlee B. 2/23

Ms. Laurie, Family Support Worker, will be partnering with families discussing their needs and assisting with any necessary referrals. She will also be presenting information about the Head Start Health Services Advisory Committee and documenting all family interest in this Committee.
Home Based - Ms. Laurie will be working with the children on developing friendships, and expressing feelings effectively through consistent communication. Therefore, strengthening social/emotional connections personally and among peers.

As we enter the winter months, please remember to check our Facebook page and 10tv for possible delays and/or for the announcement of virtual learning classroom. We will be using the virtual classroom on the days we can't transport children safely to the center. Children will be using the materials provided in the given blizzard bags on these days. Attendance for virtual classroom is important as always. Please refer to the previous detailed handout that was given for instructions on how to access the classroom.
