April

Center News

Center Based:

The children will be working on some exciting spring activities throughout the month. They will be observing the life cycle of animals and plants. They will also be learning about patterns. With the weather getting warmer outside time will be fun with parachute play, bubbles, chalk, sack races, and nature walks.

Also, it's time to re enroll for fall! If you haven't already done so already, please get with Cathy to schedule an appointment to complete re-enrollment paperwork. If you know of anyone with a child who is 3-5 years of age and is interested in enrolling their child/children in Head Start, please have them call us at the center at (740) 385-1880.

It's hard to believe that the school year is almost over! The children's last day and our end of the year party will be May 23rd. Details will be shared with families as we get closer to the of the school year.

Early Head Start

There are many ways to use the home as a learning tool. Ms. Barb will be working with families and their children on activities in the home related to counting and learning colors.

Here's some examples of everyday materials that can be used at home to support learning:

- Boxes to serve as blocks (shoe boxes, tissue boxes, etc.)
- Clean, empty laundry detergent tops or yogurt containers make excellent toys for stacking and nesting
- Empty egg cartons, cardboard food boxes, muffin tins, etc. provide opportunities to explore one-to-one correspondence and pretend play, like shopping or cooking
