

March

**Logan
Head Start
2023**

Center News

Center Based:

The children will be celebrating St. Patrick's Day this month. Our classrooms will be doing science experiments. Children will be making green milk and making predictions about what will happen when color is added to milk. Our Classrooms will also be learning about Irish culture.

Spring is right around the corner, which is a perfect time to explore the change in seasons and nature. Children will be bird watching, exploring nature, and looking for signs of spring!

Early Head Start:

Miss Barbara has some very exciting socializations planned for the month of March. Families are invited to join Miss Barb at the Logan Library to participate in the "Discovery Garden Playgroup" program for children birth – 5 years of age. In addition, home visits will focus on learning colors and numbers, and exploring nature.
