

Logan Head Start

Center News

Center Based:

This month the children who are going to kindergarten will be working on the transition. These children will be going on a field trip to a kindergarten classroom to visit and see what it's like! In the classroom, children will be planting seeds and learning about the life cycle of plants.

We will be having graduation on May 23rd at Kachelmacher park from 5:00 pm to 7:00 pm. The children will sing a couple of songs on stage and receive their diplomas. There will be refreshments provided. Families are encouraged to stay and enjoy some play time at the park with friends and family afterwards.

Early Head Start:

On Early Head Start Home Visits Miss Barbara will be working with the children on language skills, exploring the outdoors, and working on gross motor skills.

Outside play time is important for children's development. Try to make time to go out and explore nature. Have fun together as a family. Quality time is so important!
